

Dr. María-Victoria Mateos, MD, PhD, is Consultant Physician in the Haematology Department and Associate Professor of Medicine at the University of Salamanca, Spain. She is the director of the Myeloma Program and coordinates the Clinical Trials Unit in Salamanca's University Hospital Haematology Department.

She serves as coordinator of GEM (Spanish Myeloma Group), with direct involvement in the design and development of clinical trials. She has coordinated many clinical trials in elderly and smouldering MM patients that have profoundly influenced current options for treating these patient populations.

She has published over 200 original papers in international journals. Her areas of interest include multiple myeloma, the biology of plasma cells and the new drugs development.
